About the Muhurtha

The Mundan Ceremony is one of the important Sanskaras in Hindu religion. It is also called "Chudhakaran Sanskara" in Hindi. Like other Sanskaras this Sanskara also has a scientific basis. In this Sanskara the hair of the child are removed for the first time. The objectives of this Sanskara are cleanliness, intelligence and knowledge. It is believed that if this Sanskara is performed precisely, the child will be very intelligent and knowledgeable. He will also be noble and virtuous. Through this Sanskara the child is made familiar with the importance of cleanliness in life.

Key to Understand the Report

The Muhurtha system of Vedic Jyotish lets one ascertain how auspicious a certain time is for starting important work, and what kind of results can the person expect.

Muhurtha has the same basis as Birth Horoscope, the only difference is that the person is replaced by the task or work to be done. The Panchang is then checked for auspiciousness and the good and bad Yogas formed at that moment are also checked.

If a certain Muhurtha (moment) has auspicious combinations in the Panchang, and the Yogas formed are also positive then the work done at that moment will have a higher chance of resulting in success. Vedic Jyotish says that when a person chooses a good Muhurtha he gets the best result that he is destined to get.

This report uses a scoring system to make it easy to understand the auspiciousness of a Muhurtha. The score is calculated on the basis of the auspicious-inauspicious Yogas, and the status of the Panchang. The higher the score is, the better the Muhurtha is for the purpose.

The report will have the best 12 Muhurthas from the time-range you select. It will have the detailed information about these Muhurthas including the Panchang and the Yogas formed.

You can select a good Muhurtha from the list according to your preference and convenience.
